

Indicators of Compromise (IOC)

Master Summary Table · AgentTesla Malspam Campaign · Globex Manufacturing Ltd.

INCIDENT DATE 04 December 2024	ANALYST Ukah Paul	CLASSIFICATION HIGH	HANDLING TLP:RED — Restricted
-----------------------------------	----------------------	------------------------	----------------------------------

CONFIDENCE LEVEL KEY

● HIGH Confirmed malicious — immediate action required	● MED Suspicious — validate and monitor	● LOW Informational — context only
---	--	---------------------------------------

 A — Email Sender & Authentication

Indicators extracted from raw email headers and authentication analysis

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	Sender Address	sertan@acronas.com.tr	Email Header — From:	● HIGH
02	Sending Domain	acronas.com.tr	Email Header	● HIGH
03	Originating IP	94.141.120.32	Email Header — Received:	● HIGH
04	SPF Result	softfail — sender IP not explicitly authorised	MXToolbox Header Analysis	● HIGH
05	DKIM Result	none — no cryptographic signature present	MXToolbox Header Analysis	● HIGH
06	DMARC Result	none — no enforcement policy configured on domain	MXToolbox Header Analysis	● HIGH
07	Timezone Anomaly	-0800 (US Pacific) — Turkish sender claimed	Email Header — Date: field	● HIGH
08	Email Subject	PURCHASE QUOTATION — supplier impersonation lure	Email Header — Subject:	● HIGH

 B — Attacker Infrastructure
WHOIS intelligence on sending IP — bulletproof-style hosting with anomalous registration dates

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	IP Subnet	94.141.120.0/24	RIPE WHOIS — inetnum	● HIGH
02	Subnet Name	DGTL-NETWORK-2024-12-11	RIPE WHOIS — netname	● HIGH
03	Subnet Created	2024-12-11 — provisioned 7 days AFTER the attack	RIPE WHOIS — created field	● HIGH
04	ASN	AS61087 — route object also created 2024-12-11	RIPE WHOIS — route object	● HIGH
05	Hosting Organisation	DGTL TECH UK LLP (ORG-DTUL2-RIPE)	RIPE WHOIS — org field	● HIGH
06	Registered Address	71-75 Shelton Street, WC2H 9JQ, London, UK — known virtual office address	RIPE WHOIS — address	● HIGH
07	Abuse Contact	abuse@dgtl.tech	RIPE WHOIS — abuse-c	● HIGH
08	Geographic Deception	Claimed Turkey · Timezone US Pacific · IP UK-hosted — 3-way mismatch	Header + WHOIS correlation	● HIGH

 C — Malicious Attachment & File
Static analysis of email attachment — file masquerading chain delivering AgentTesla payload

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	Declared Filename	TECHNICAL SPECIFICATIONS.TAR	emldump.py — MIME part listing	● HIGH
02	True File Format	RAR archive data v4, os: Win32 — extension spoofed	file command — magic bytes	● HIGH
03	Evasion Technique	File Masquerading (MITRE T1036.008) — .TAR extension on RAR archive	file vs declared MIME type	● HIGH

04	Payload Filename	TECHNICAL SPECIFICATIONS.exe — inside RAR	unrar l — archive listing	● HIGH
05	Payload Type	PE32 .NET executable (GUI) — Mono/.NET assembly	file command on extracted .exe	● HIGH
06	Compile Timestamp	2024-12-04 00:02 — compiled same day as delivery	PE header — compilation timestamp	● HIGH
07	VirusTotal — RAR	MALICIOUS: Trojan/AgentTesla (Win32.AgentTesla Keylogger)	VirusTotal — SHA256 lookup	● HIGH
08	VirusTotal — EXE	MALICIOUS: Trojan.msil/Strictor — multiple vendor detections	VirusTotal — SHA256 lookup	● HIGH

 D — File Hash IOCs

Cryptographic fingerprints for SIEM and EDR rule deployment — both artefacts confirmed malicious

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	MD5 — RAR Container	b7635c9cc63619099419c68a2bf0d390	md5sum — TECHNICAL_SPECIFICATIONS.tar	● HIGH
02	SHA256 — RAR Container	5c98308c69c84a57214442e2cad9f8f0fcd9bab8e6050f9915ac336b6f1d59f0	sha256sum — TECHNICAL_SPECIFICATIONS.tar	● HIGH
03	MD5 — EXE Payload	65feefe926eb3f734b6968b35c23acb3	md5sum — TECHNICAL SPECIFICATIONS.exe	● HIGH
04	SHA256 — EXE Payload	d1b068b826e3a9527cddd09866886caba895f390af930a9b35c027eb1c2db34c	sha256sum — TECHNICAL SPECIFICATIONS.exe	● HIGH

 E — Victim Host
Compromised workstation identity — extracted from PCAP traffic and AgentTesla exfil filenames

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	Internal IP Address	10.12.4.101	tshark conv,ip — highest-traffic internal host	● HIGH
02	Hostname	DESKTOP-VJCRXEB	AgentTesla exfil filenames — malware-embedded	● HIGH
03	OS Username	gary.strickman	AgentTesla exfil filenames — malware-embedded	● HIGH
04	Operating System	Microsoft Windows 11 Pro	PW_ exfil file content header	● HIGH
05	Public IP Address	173.66.46.97	api.ipify.org response — malware IP discovery	● HIGH

 F — DNS & Network Indicators
DNS queries observed in PCAP — only 3 total queries confirm malware-only isolated execution environment

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	IP Discovery Domain	api.ipify.org	tshark DNS — T+0.000s (first packet in PCAP)	● HIGH
02	IP Discovery CDN IP	172.67.74.152	tshark DNS response — Cloudflare CDN	● MED
03	FTP C2 Domain	ftp.ercolina-usa.com	tshark DNS — T+6.122s and T+1211.313s	● HIGH
04	FTP C2 Server IP	192.254.225.136	tshark conv,ip + FTP stream correlation	● HIGH
05	C2 Beacon Interval	~20 minutes (1,211 seconds) — automated pattern	DNS re-query timestamp delta calculation	● HIGH

 G — FTP Exfiltration Channel

Cleartext FTP used as C2 and exfiltration channel — credentials and data fully exposed on wire

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	FTP Port	Port 21 — cleartext, NO TLS encryption whatsoever	tshark FTP filter	● HIGH
02	FTP Server Banner	Pure-FTPD [privsep] — server software fingerprinted	FTP 220 banner — tshark stream	● HIGH
03	FTP Username	ben@ercolina-usa.com	FTP USER command — visible cleartext on wire	● HIGH
04	FTP Password	[REDACTED — confirmed visible cleartext on port 21]	FTP PASS command — tshark FTP stream	● HIGH
05	Total FTP Sessions	2 sessions — consistent automated beacon pattern	tshark FTP session reconstruction	● HIGH
06	Total Data Exfiltrated	~38 KB across 4 files in 2 timed sessions	tshark FTP-DATA frames + export-objects	● HIGH

 H — Exfiltrated Files

All 4 files recovered in full from PCAP — browser credentials, cookie stores, and 20-minute keylog captured

#	IOC TYPE	VALUE / INDICATOR	SOURCE / EVIDENCE	CONFIDENCE
01	Password Dump (PW_)	PW_gary.strickman-DESKTOP-VJCRXEB_2024_12_04_21_20_57.html · 392 B	FTP STOR — Session 1 · Saved Edge browser passwords	● HIGH
02	Chrome Credentials (CO_)	CO_Chrome_Default.txt_gary.strickman-DESKTOP-VJCRXEB_2024_12_04_21_21_03.txt · ~23 KB	FTP STOR — Session 1 · Chrome credential + cookie store	● HIGH
03	Edge Credentials (CO_)	CO_Edge_Chromium_Default.txt_gary.strickman-DESKTOP-VJCRXEB_2024_12_04_21_21_04.txt · ~11 KB	FTP STOR — Session 1 · Edge Chromium credential store	● HIGH
04	Keylog Dump (KL_)	KL_gary.strickman-DESKTOP-VJCRXEB_2024_12_04_21_41_04.html · ~1.4 KB	FTP STOR — Session 2 · 20 min captured keystrokes	● HIGH

 I — MITRE ATT&CK Technique Mapping

Full kill chain coverage: Initial Access → Execution → Defense Evasion → Discovery → Collection → C2 → Exfiltration

#	TACTIC	TECHNIQUE · ID	EVIDENCE
01	Initial Access	Spear Phishing Attachment T1566.001	Spoofed Turkish supplier email with malicious RAR attachment
02	Execution	User Execution: Malicious File T1204.002	Victim required to open attachment and manually run .exe
03	Defense Evasion	Masquerading: Wrong Extension T1036.008	.TAR extension on RAR archive; .exe inside — bypasses email filters
04	Defense Evasion	Obfuscated Files or Information T1027	.NET binary packed to evade static AV signatures
05	Discovery	System Network Config Discovery T1016	api.ipify.org queried at T+0 — malware retrieves public IP
06	Discovery	System Information Discovery T1082	Hostname and username auto-embedded into all exfil filenames
07	Collection	Input Capture: Keylogging T1056.001	KL_ file — 20-minute HTML keylog dump of victim keystrokes
08	Collection	Credentials from Web Browsers T1555.003	CO_ files — Chrome and Edge credential + cookie stores stolen
09	Collection	Credentials from Password Stores T1555	PW_ file — saved browser password vault extracted
10	Command & Control	Application Layer Protocol: FTP T1071.002	Port 21 used as C2 channel — cleartext, no encryption
11	Exfiltration	Exfiltration Over C2 Channel T1041	All stolen data uploaded via FTP STOR to 192.254.225.136
12	Exfiltration	Automated Exfiltration T1020	Two timed sessions; 20-min hardcoded beacon; no user interaction
